Best regards,

Prof. habil. Eng. Larisa IVAȘCU, Ph.D.
Director of Research Center for Management and Engineering

We would like to cordially invite you for a procurement webinar titled:

“Value slipping through your fingers: enhanced procurement contributing to the success of your company.”

Context

It was exactly two years ago when Europe was struck by the pandemic outbreak. No sector remained intact. Procurement professionals had to face **price and availability fluctuations**. This reshaped our perspective on how a resilient and successful business operates. They incorporate diversification of supply, high situation awareness and decisions based on data, information, insights and problem-solving mindset.

On 24th of February 2022 we awoke to a different world again. Many supply chains, which were already reshaping, have been **destroyed. Procurement professionals must adapt again**. Regardless of the size of the company or of its branch, effective procurement function is a **key factor to survive**. We would like to explore this topic together with you.

How will this webinar look like?

This short, sharp online 1.5 hour event will provide insights and learning through a **case-study presentation, webinar discussion and Q&A** session with participants

Who is this webinar for?

This webinar will be a valuable experience **for all professionals responsible for company's costs and procurement spend**, such as procurement, logistics, financial specialists, project managers and business owners, likewise for academics, researchers and students.
